PRESBYTERY OF THREE HILLS MEETS AT ALIX

One of the most interesting items of business connected with the meeting of the Three Hills Presbytery at Alix was the induction of Rev. Richard Upton into pastoral charges of Mirror-Alix congregations.

Rev. C. B. Oakley presided and inducted. Rev. Wm. McNichol led in prayer. The sermon was preached by Rev. J. C. MacLennan. The minister was addressed by the Rev. Thomas Taylor, and the people by Rev. F. J. Hartley. A pleasing feature of the induction service was a solo rendered by Mrs. Upton, wife of the newly inducted minister.

The people of Alix provided dinner for the Presbytery at the White Lunch and after the induction service they added an hour's social entertainment, and the ladies of the congregation served tea, cakes, etc.

At the afternoon meeting, after necessary business had been transacted, the subject of the Spiritual Life of the Church was taken up. Rev. T. Taylor opened the subject by some suggested hints, and Rev. A. R. Schrag presented his ideas as to what constituted the spiritual life of the church.

Amongst the visitors present were Rev. Dr. Dobson, of Vancouver, and Rev. Dr. Powell of Calgary, both of whom contributed materially to the subject in hand. Dr. Dobson as secretary of Social Service and Evangelism, summed up the various views presented and made some valuable suggestions in connection with the matter.

The Presbytery is just one year old and Rev. Thos. Taylor, of Bashaw was elected chairman. The thanks of the Presbytery was tendered the retiring chairman, Rev. C.B. Oakley. Rev. F.J. Hartley was re-elected secretary and Mr. L.B. Hart as treasurer. The report of the treasurer showed a clear balance on hand.

The following convenors were elected: Home Missions, Wm. McNichol; Foreign Missions, W.J. Cook; M. and M. Fund, A.R. Schrag; Religious Education, J.C. MacLennan; Evangelism and Social Service, Richard Upton;

O.S.A. DEVELOPING MECHANICS BRANCH OF ITS COURSE

The School of Agriculture at Olds will open for the 16th session on October 29th next. The number of applications and enquiries that are being received indicate that there will be a good average attendance again this year. The average attendance for the past three years has been 251, and it is expected that the attendance this year will be very close to that figure.

The courses that are being offered are very similar to those that have been taught in the past. The mechanics branch, however, is being strengthened. The school is taking on a special instructor in gas engines and farm machinery. The services of this man will be for the purpose of strengthening the mechanics instruction in the mechanics branch of the Agricultural course. With the services of an additional instructor who is especially well qualified for giving instruction in electricity, gas engines and farm machinery, it will enable the school to put on a course that would rank among the highest in the province in these subjects.

The dormitories are capable of accommodating approximately 175 for board and room. Those who apply early and book their reservations for rooms get the preference at the time of registration; however, those who are not able to get into the dormitories, have their accommodation arranged for by the school management, with good homes in the town of Olds. The cost of board and room in the school and private homes is \$1.00 per day per student.

Superannuation Treasurer, C.B. Oakley; Pension Fund, Thomas Taylor; Statistics, F.J. Hartley.

Otto Rollis, who has done good work on his mission field, was certified to College. Good reports were received from the fields service by Ralph Schrag and A. Hartin.

Requests were received from Grand-

"RAMONA" TO BE SHOWN AT CARBON THEATRE THIS WEEK

The management of the Carbon Theatre have been successful in obtaining that well known and much talked of picture "Ramona," and it will be shown here on Friday and Saturday of this week at the usual prices. This picture was showing in Calgary this spring and during the three days it played there, the theatre was crowded at all performances.

If you are looking for drama and romance in the days of the California gold rush, do not fail to see this picture on Friday or Saturday of this week. The dates are September 20th and 21st.

court, etc., for service this winter. This matter and furnishing manes were left in the hands of the Home Mission Committee.

Rev. W.E. Steber, Superintendent of German congregations, was present and assisted in the transaction of considerable business.

LITTLE ITEMS OF LOCAL INTEREST

Mrs. Greenhalgh was a Calgary visitor last week.

Hugh MacDonald spent the week end at his home here.

Mr. and Mrs. Rudolph Brost returned last week from a two months trip to the United States.

Among those from Carbon taking in the Harry Lauder program at the Grand theatre in Calgary on Saturday last were: Mr. and Mrs. J.A. MacDonald, Mr. and Mrs. R.J. Fairbairn, Mr. and Mrs. Harley C. Willson and Mr. and Mrs. E.J. Rouleau.

Miss Vera Poxon returned home from Calgary on Sunday.

Carl Moorhouse was a Calgary visitor on Saturday.

Miss Belle Smith went into Calgary on Tuesday and returned the same day.

Wednesday after spending the past Wednesday after spending the past couple of weeks visiting with her sister in Calgary.

Born to Mr. and Mrs. John Forsch on Wednesday, Sept. 11th, a son.

Mrs. Thos. Douglas arrived Tuesday night from Soda Creek, B.C. and is visiting with her sister, Mrs. T. J. Ramsay.

Miss Connie Neville left last week for Drumheller, where she has secured a position in the Vicker's store.

Rev. Wm. McNichol spent the first day of the hunting season with a party of friends at the Quill Lakes and reports fair luck.

The W.M.S. will hold a tea and sale of home cooking in the Farmers Exchange hall on Saturday afternoon, September 28th.

Jas. Ramsay, Thos. Ramsay and E. J. Rouleau were duck hunters to Pine Lake on Monday. The ducks are not plentiful in that part of the country.

The Women's Institute of Hesketh are holding a dance in the Hesketh Community hall on Friday, September 27th. Good music. Everybody welcome. Admission: Gents \$1.50; Extra Lady 50c. Lunch included.

An emergency meeting of the Carbon Board of Trade will be held in the Municipal office on Monday night, September 23rd, at 8 p.m. Sharp. Immediately following this meeting there will be a meeting of the Carbon Curling Club and everyone interested is asked to attend both of these meetings.

The dance in the Elks hall last Saturday night was well attended and the music by the Brunswick Panatope was well up to expectations. We understand that about 100 people were present.

PRIZE WINNERS OF THE CARBON SCHOOL FAIR

(Continued From Last Week)

ATHLETIC EVENTS

Running Broad Jump, boys under 12: Jimmie Hunt 1st; Willie Batsch 2nd; Henry Trumbley 3rd.

Running Broad Jump, boys under 14: James Fairbairn 1st; Harry Poxon 2nd; Billy Peters 3rd.

Running Broad Jump, open class—Albert Morrow 1st; Wilfred Poxon 2nd; Peter Dodyk 3rd.

Running Hop-step-jump, boys under 12—Jimmie Hunt 1st; Henry Trumbley 2nd; Robert Wise 3rd.

Running Hop-step-jump, Boys under 14—Billy Peters 1st; James Fairbairn 2nd; Norman Nash 3rd.

Running Hop-step-jump, open class—Albert Morrow 1st; Wilfred Poxon 2nd; Harold Edwards 3rd.

50-Yard Dash, boys under 8—Cecil Trumbley 1st; Gordon McGregor 2nd; Ernest Little 3rd.

50-Yard Dash, girls under 8—Jean Skerry 1st; Norma Little 2nd; Verna Congo 3rd.

75-Yard Dash, boys under 10—John Rogers 1st; Cecil Paget 2nd; Cecil Trumbley 3rd.

75-Yard Dash, girls under 10—Hilda Laft 1st; Stella Dodyk 2nd; Jean Skerry 3rd.

100-Yard Dash, boys under 12—Willie Batsch 1st; Clifford Gordon 2nd; Charles Code 3rd.

100-Yard Dash, girls under 12—Dorothy Laft 1st; Betty Johnson 2nd; Catherine Bell 3rd.

100-Yard Dash, open for boys—Wilfred Poxon 1st; Albert Morrow 2nd; Harold Edwards 3rd.

100-Yard Dash, open for girls—Molly Laing 1st; Hazel Hunt 2nd; Agnes Graham 3rd.

Wheelbarrow Race, boys under 12—John Rogers and Clifford Gordon 1st; Henry Trumbley and Jimmie Hunt 2nd; Robert Wise and Cecil Trumbley 3rd.

Wheelbarrow Race, Open Class—Wilfred Poxon & Harold Edwards 1st; Billy Peters & Albert Morrow 2nd; Billy Galech & John Rogers 3rd.

Sack Race, Under 12—Henry Trumbley 1st; Robert Wise 2nd; Jimmie Hunt 3rd.

Sack Race, Open—Harold Edwards 1st; Albert Morrow 2nd; Wilfred Poxon 3rd.

Sack Race, open for girls—Myrtle Oliphant 1st; Edith Bell 2nd; Betty Johnson 3rd.

Jockey Race, under 14—Beverley Paget and Wilfred Tricker 1st; Jimmie Hunt & Henry Trumbley 2nd; Clifford Gordon & William Godding 3rd.

Open Jockey Race—Wilfred Poxon & Albert Morrow 1st; Harold Edwards & Perry Johnson 2nd.

Three-legged Race, boys under 14—Billy Peters and Wilfred Skerry 1st; George Jealous and Fergus Greenan 2nd; Cecil Trumbley and John Rogers 3rd.

3rd.

Three-legged Race, Open Class—Harold Edwards and Perry Johnson 1st; Wilfred Poxon and Albert Morrow 2nd; William Downe and William Godding 3rd.

High Jump, boys under 12—

Albert Morrow 1st; Wilfred Poxon 2nd; Randolph Gordon 3rd.

High Jump, boys under 14—

James Fairbairn 1st; Randolph Gordon 2nd; Albert Turcotte 3rd.

Class 11, Vase of Asters—

William Downe 1st; Mabel Ramsay 2nd; Gordon Ramsay 3rd; Jean White 4th; Jack Heath 5th.

Class 12, Vase of Sweet Peas—

Billy Peters 1st; Dorothy White 2nd; Marion Waldron 3rd; Stanley Ramsay 4th; Agnes Wise 5th; Florence Gibson 6th.

Class 13, Vase of Stocks—

Myrtle Livingstone 1st; Billy Peters 2nd; Billy Heath 3rd; Mabel Ramsay 4th; Joyce Chapman 5th; Wilfred White 6th.

Class 14, Sheaf of Wheat—

Vera Atkinson 1st; Joyce Chapman 2nd; George White 3rd; Herbert Congo 4th; George Congo 5th; Myrtle Livingstone 6th.

Class 15, Sheaf of Oats—

Joyce Chapman 1st; Edna Gibson 2nd; Wm. Gibson 3rd; Tom Rowbottom 4th.

Class 16, Sheaf of Barley—

William Godding 2nd.

Class 18, Sheaf of Sunflowers—

Bernard Hunter 1st; Margery Martin 2nd; Lillian Dixon 3rd; William Dixon 4th.

Class 19, Sheaf of Corn—

Myrtle Livingstone 1st.

Class 21, One Quart Threshed Wheat—Vera Atkinson 1st; Betty Johnson 2nd; Sylvia Atkinson 3rd; Elma White 4th; William Gibson 5th, William Downe 6th.

Class 22, 1 Qt. of Threshed Oats—Norman Poole 1st; William Downe 2nd; Basil Poole 3rd; Clifford Poole 4th; Cyril Poole 5th; Sylvia Atkinson 6th.

Class 29, Pure Bred Heifer or Bull born in current year—

Sylvia Atkinson 1st; Vera Atkinson 2nd.

Class 28, Grade Beef Heifer or Steer born in current year—

Joyce Laing 1st; Molly Laing 2nd; Iris Laing 3rd.

Class 30, Grade Dairy Heifer, pail fed, born in current year—

H.E. Congo 1st; Hazel Hunt 2nd.

Class 31, Pure Bred Dairy Heifer or bull born in current year—

Billy McGregor 1st.

Class 32, Pair of Pigs, bacon type, born in current year—

Vera Atkinson 1st; Herbert Congo 2nd.

Class 33, Foal born in current year, halter broken—

Irwin Mortimer 1st; Harold Edwards 2nd.

The Progress of Little Things

In these modern days when it is "the thing" to boast about the bigness of this and that, and when countries and cities lay claim to the possession of the biggest of something or other, we are apt to forget how many of these "big" things were brought about, and to lose sight of the essential fact that anything "big" is in reality only a collection or combination of many very small things.

Nowadays not so much stress is laid upon old sayings of a couple of generations ago, such, for example, as "Mighty oaks from little acorns grow!" nor do we stop to contemplate that this globe on which we live is after all made up of "little drops of water, little grains of sand."

It would be better for everyone of us if we gave greater heed and attached their real importance to the little things of everyday life. The wealth of the multimillionaire is, after all, only an "unusually large accumulation of pennies, and some of the very rich men of the world laid the foundation of their wealth by careful saving of their pennies. The hundreds of millions of bushels of Marquis wheat harvested in Canada every year is the result of one little kernel developed by Dr. Saunders.

The investment of a very few dollars by the parents of a baby at the time of its birth, if left to accumulate at compound interest throughout the years of its minority, would mean a very substantial sum of money upon which to commence a career in the world by the time the child became of age.

These thoughts come to us when reading a recent article about Trinity Church, in New York City. This church, which stands at the head of Wall Street, the centre of New York's financial district, began its career 233 years ago on a precarious income derived from the flotsam and dead whales cast up by the sea along the shore where one of the world's largest cities now stands. Today Trinity Church Corporation is one of the largest holders of real estate in that city, owning \$15,000,000 of revenue producing real estate, bringing into the church coffers almost \$1,500,000 a year. Nor do these large figures include the value of the property upon which Trinity Church itself stands, the equivalent of about two square blocks in the heart of the financial district, and conservatively valued at another \$15,000,000.

The tremendous wealth of Trinity, we read in the Wall Street Journal, would appear fantastic to the organizers of this church in 1696, when King William III. made the original grant of land to the parish, supplemented nine years later by a further grant from Queen Anne. In those days the land was of no particular value, Wall Street was non-existent, and Fifth Avenue not even a foot path. But Manhattan Island was destined for great wealth, and the worthless property of a little over 200 years ago is worth many millions today.

Historical records contain efforts to obtain funds to start the church, which appear incredible when contrasted with present day values. One aid to the building of the original church in 1696 was a patent issued by the Governor of New York. It permitted vestrymen to seize all drift whales, or anything else driven by the sea onto land, and for which there was no owner. It further directed that the whales be towed ashore, fried, and proceeds used for a building fund.

The lesson of this interesting bit of history is this: Today there are thousands of young people just starting out in life. They have little or nothing. With them it is indeed a day of small things, and as they look around them and see so many huge undertakings, great enterprises, and the speed of the modern world, they are inclined to be discouraged, and become obsessed with the false idea that there is no opportunity for them.

But opportunities exist today as never before. There are a thousand today where there was but one two hundred years ago. The beginning must be small now, as it was then, but the opportunity is there just the same, while the possibilities and probabilities of growth are many times more rapid now.

Tackle the small thing at once; save the small things, the pennies; watch for and embrace your opportunities; conserve those things which come to you. The bigger things, and the rewards of work and of service to your fellowmen will follow in due course.

Firebrick and Fireclay Products

Firebrick and fireclay shapes are produced, both from domestic and imported clays, in Nova Scotia, Quebec, Ontario, Saskatchewan, Alberta, and British Columbia. Refractory silica bricks are also produced in Nova Scotia and Ontario.

"Excuse me," said the impatient man at the table to the manager, "but did the waiter who took my order leave any wife or family?"

You seldom find the name of the fellow who thinks he's "it" in Who's Who.

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let it show you now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Story Of Privation

Tragic Case Of Two Boys Lost In Woods Of Northern Quebec

How 12-year-old Michael Courtois remained for nearly two months beside the body of his brother, Rene, 19, dead from hunger and privation in the woods, and how the two of them had wandered for miles, famished and helpless, was described at Roberval, Quebec, at the inquest into the death of Rene Courtois, found dead in the woods of northern Quebec, after having been missing since August, 1928.

Roots, berries and fish bones furnished slender means of livelihood for a time, young Michael told the coroner's jury. They were four hundred and fifty miles from Roberval, the nearest outpost of civilization. Having but two matches, they kept a fire burning in a pall for two months. When the search party found them, the fire was still smoldering but Rene Courtois was dead.

Michael had almost completely lost his reason when rescued, but it is now completely restored, though he is a physical wreck.

The boys were lost when their father left them at his cabin while he undertook a hunting trip. They wandered from the camp.

The coroner's jury returned a verdict, "death by starvation and misery."

FEELING WORN OUT

When the Blood Becomes Watery a Breakdown Follows

How many girls and women suffer from headaches, pain in the back or side, poor appetite, nervousness and a constant feeling of weariness and palpitation of the heart at the least exertion. Of course, all these symptoms may not be present in any one case, but any of them show that the blood has become thin and watery, and good health can only be regained by enriching the blood. This should be done without delay. For this purpose nothing else acts so promptly and so surely as Dr. Williams' Pink Pills. Every dose helps to enrich the blood and tone weak nerves and thus brings new health and vitality to weak, and often despondent people. The truth of these statements is proved by the case of Mrs. Howard King, R.R. 5, Truro, N.S., who says: "A couple of years ago I grew so weak I could scarcely walk across a room without help. My blood was thin and I was almost breathless. I had taken Dr. Williams' Pink Pills on a former occasion with good results, and so decided to try them again. By the time I had taken a few boxes I felt much better, but I continued taking the pills for several months, by which time I could walk for miles with little effort. I do all my own housework and care for four children, so you will see what Dr. Williams' Pink Pills have done for me."

You can get these pills through any medicine dealer or by mail, post paid, at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Gratifying Progress In Tree Planting

The 1928 reports of inspectors of the tree plantations made on prairie farms with trees furnished by the Forest Service of the Department of the Interior from their nurseries at Indian Head and Sutherland, Saskatchewan, show that 83 per cent. of the plantations inspected were found to be in very good condition, 14 per cent. were fair, and only 3 per cent. were in poor condition.

Rub It In For Lame Back. — A brisk rubbing with Dr. Thomas' Electric Oil will relieve lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in, the pain comes out and there are ample grounds for saying that it is an excellent article.

Alberta Calves For Dakota

Alberta's Flying Rancher Receives Order From North Dakota State University

George Ross, southern Alberta's flying rancher, has received an order from North Dakota state university for 1,000 calves to be distributed by the university to boys' and girls' baby beef clubs throughout the state as part of a movement to encourage more and better livestock production.

The calves will be delivered during October, and after distribution, will be fed up during the winter for spring stock shows in North Dakota.

Kill that corn with Minard's Liniment.

W. N. U. 1803

The Most Beautiful BLACK you have ever seen

"THE most beautiful black you've ever seen!" "All my friends admire my new black silk!" "The coat I thought was hopelessly spotted is now a new, beautiful black!" These are typical comments from women who have used these true, jet black dyes.

Diamond Dyes Black never gives cloth a greenish or bronzy look, as so many black dyes do. Like Diamond Dyes Red and all the other Diamond colors, it is easy to use and gives such beautiful results because it is rich in pure anilines. It's the anilines in dyes that give them brilliance, depth and fastness; make them go on smoothly and evenly, without

streaking or spotting. And Diamond Dyes contain the highest quality anilines that money can buy. The white package of Diamond Dyes is the highest quality dye, prepared for general use. It will dye or tint silk, wool, cotton, linen, rayon, or any mixture of materials. The blue package is a special dye, for silk and wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

Diamond Dyes

Sun Proof

EASY TO USE—BETTER RESULTS

Diamond Dyes contain the highest quality anilines money can buy. And it is the anilines that count. They are the life of that color; the source of their rich colors; brilliance and permanence.

Ontario Research Foundation

Saskatoon Professor Will Go To Toronto To Engage In Research Work

Dr. Seymour Hadwen, research professor of animal diseases at the University of Saskatchewan, will leave Saskatoon for Toronto shortly for the Ontario Research Foundation as director of veterinary science.

This foundation is subscribed to jointly by a number of commercial firms in Ontario, and the Ontario Government. The chairman is Sir Joseph Flavelle.

Dr. Hadwen, who has been in charge of the veterinary research at Saskatoon since the laboratory for this purpose was opened, comes from Manchester, England. His research work on the effect of sunlight on white animals and the susceptibility of white cattle to attacks by parasites have attracted attention among scientific men and stock breeders. He has also made interesting discoveries with regard to the cause and method of the change of colour of the fur of wild animals in winter.

Sunday Work In Russia

Sunday was abolished as a regular day of rest when the Soviet Government recently inaugurated in scores of trades and institutions a new "continuous production week." Employees will have their regular hours and rest-day, but work will be carried on continuously by others.

Population Of Australia

Commonwealth Statisticians Show Increase During the Past Year

The population of Australia at December 31 last, was 6,336,786, an increase during the year of 1928, of 101,932, according to figures compiled by the Commonwealth statisticians. The corresponding estimate for New Zealand was 1,466,952, showing an increase of 16,862.

The state of New South Wales has a population of 2,455,280; Victoria state 1,760,689; Queensland, 916,689; South Australia 579,348; Western Australia, 405,873; Tasmania, 216,563.

The population of the six capital cities of Australia now totals 3,018,248.

Blood passes through the heart at a rate of about seven miles an hour.

Boils

Dry up boils with Minard's. It's antiseptic qualities kill the poison and draw out inflammation.

Western Representatives:
HUNTER-MARTIN & CO., REGINA, SASK.

STATE CONTROL SUGGESTED FOR BROADCASTING

Ottawa. — Radio-broadcasting in Canada should be controlled and operated by a government-owned company. That is the effect of the chief recommendation of the royal commission which presented its report to Hon. P. J. Cardin, minister of marine and fisheries.

The company would have somewhat similar relations to the Dominion Government as the Canadian National Railways has, but would be distinct from that organization. It would have 12 members, three representing more particularly the Dominion Government, and one representing each of the provincial governments. The members of the commission were Sir John Aird, Toronto, chairman; Charles A. Bowman, Ottawa, and Dr. Augustin Frigon, Montreal.

The recommendations provide that the task of supplying the programs would fall upon the provincial representatives of the company.

The present owners of broadcasting stations would be reasonably recompensed when their plants were taken over or dismantled. The expenditure necessary for the operation and maintenance of the service should be met by license fees, rental of time on stations for programs employing indirect advertising and a subsidy from the Dominion Government.

High-power stations should be erected across Canada. As a nucleus to the publicly-owned service, seven 50,000-watt stations should be provided to give a good reception over the entire settled portions of the Dominion.

In making public the report, Mr. Cardin said he was well satisfied with the commissioners and their work.

The report will be submitted first to the technical officers of the department. Later it will go before the cabinet. To put the recommendations into effect would necessitate important legislation.

International Balloon Race

Ten Entries For the Gordon Bennett Event To Be Held Soon

St. Louis, Mo. — Ten balloons, representing the United States, France, Germany, Belgium, Denmark and the Argentine, will soar away from St. Louis, September 28, in quest of the international Gordon Bennett trophy. It will be the eighteenth of the international balloon races and the third to start from St. Louis. Seven of the races have been won by the United States, and five by Belgium, which gained permanent possession of the original Gordon Bennett trophy with its third straight victory in 1924.

The United States became permanent possessor of the second trophy with victories in 1926, '27 and '28. Now the third of the Gordon Bennett trophies is up, with three U.S. air-men seeking to gain the first leg on it.

Heads Grain Exchange

Winnipeg. — William A. Murphy, vice-president of the Reliance Grain Company, Limited, was elected president of the Winnipeg Grain Exchange, succeeding James A. Crowe, who retired. Mr. Murphy was elected by acclamation. A. P. White, of the firm of Clark and Martin, and Ernest S. Parker, were elected vice-presidents.

Alberta Wheat Pool

Calgary, Alberta. — The Alberta Wheat Pool now owns 420 elevators spread over the length and breadth of the province. This is an increase of 135 over the number operated last year. The Pool now has facilities to handle approximately 90 per cent of all Pool wheat.

Steamship Disaster

Helsingfors, Finland. — The number of persons missing in the Kuru steamship disaster is officially stated to be 120, while an unofficial estimate is 145. Only 45 bodies have been recovered.

W. N. U. 1803

Forecast Dominion Election

Hon. Robt. Forke Says Elections May Be Held Within a Year

Winnipeg. — Within 15 months — and probably within a year — a Dominion election will be held, was the forecast of Hon. Robert Forke, Minister of Immigration, speaking before the Winnipeg Liberal Association here. The Dominion minister declared that the Liberal party would make gains in the Maritimes. Manitoba, he said, would be the keystone province.

"Why pay people to come to this country?" asked Mr. Forke, "Canada is a good enough country for people to come to of their own volition."

The matter of assisted passages required very serious consideration, the minister commenting that he intended to cut some of the assisted immigration afforded in the past.

No immigrant who paid his own passage has been deported, Mr. Forke pointed out, but all discontented immigrants sent back to Britain have come out under the assisted passage plan. "I still believe that there is room for everybody in Canada, but we want them to come here only when we can absorb them," he declared.

Jury Makes Recommendation

Unable To Establish Origin Of Fatal Winnipeg Fire

Winnipeg. — Stating that it was unable to definitely establish the origin of the fire that destroyed Medway Court on September 1, with the loss of nine lives and more or less serious injuries to 10 persons, a coroner's jury which has investigated the disaster has expressed the opinion that the building was not adequately equipped with means of escape in case of fire.

The jury recommends that proper authorities forthwith have a thorough investigation made of all buildings of three storeys or more used as residences by three experts, including the fire chief, to secure their unbiased opinions and make recommendations for more adequate protection when necessary of occupants in case of fire.

Yukon Parcel Post

Service To Be Suspended During the Winter Months

Calgary. — Parcel post to the Yukon will be suspended during the season of closed navigation on the Yukon River, which extends approximately from October 1 to May 21.

During this period mail addressed to the Yukon will not be accepted unless directed to Champagne, Carcross and White Horse.

Permission to convey such mail as is offered by the public for carriage via air service from Prince George, B.C., to the Ingenika River area in Northern British Columbia, has been granted to the Western Canada Airways of Winnipeg.

Special stickers will be sold by the company in payment of the special charge for air carriage.

Fanatics Behind Bars

Vancouver, B.C. — Chanting the weird Russian songs of their religion, 104 men and women with seven children, members of the Sons of Freedom sect of the Doukhobors, were quietly detained at Essondale, near New Westminster, and taken in buses to Okalla jail, where they began to serve sentences of six months for indecent exposure imposed at Nelson, B.C. The Doukhobors were arrested at South Slokan, on August 29, after staging a nude parade.

Want Disarmament Conference

Geneva. — The League of Nations was called upon by the Irish Free State to convene a general disarmament conference of the powers. Patrick McMilligan, foreign minister of the Free State Government, made the proposal. He expressed regret that 11 years after the close of the great war so little had been done to remove the weapons of war.

Study Wheat Prices

Washington. — Investigation of the disparity between Canadian wheat prices and the prices of wheat in the Northwestern States, together with a study of the whole subject of grain storage facilities, has been initiated by the Federal Farm Board.

IN AIRPLANE CRASH

Lady Mary Heath, noted English aviatrix, was seriously injured in an aeroplane crash at Cleveland. Her condition is reported as favorable.

Doukhobors Sent To Jail

Fifty-Nine Members Of Sons Of Freedom Are Sentenced

Regina. — Ninety-six Doukhobors, men, women and children, self-styled Sons of Freedom, have been sent to Prince Albert. Of this number, 59 have been sentenced to serve six months in jail, while the remainder, consisting of 37 juveniles, 20 boys and 17 girls, will be handed over to the children's welfare bureau at Prince Albert.

Thirty-four women who disrobed two miles east of Mikado on the highway, pleaded guilty of charges of indecent exposure. Two women and 23 men were convicted on a vagrancy charge, while no charge was laid against the juveniles.

Dress Reform Movement

Combination Trousers and Skirt Suggested For Universal Use

London, Eng. — The dress reform movement broke into the congress of the World League for sex reform on a scientific basis when a combination of trousers and skirt was suggested for universal use.

Dr. J. C. Lugel, of England, addressing the delegates of 11 countries, said that men possibly will adopt skirts and women trousers in the future, or more likely there will be a uniform combination for both sexes. He urged creation of a new mode of dress which would incorporate the advantages for both.

Soviets To Stay Out

Will Not Participate In Plans For An Economic United Europe

London, Eng. — An Exchange Telegraph despatch from Riga states that the Russian foreign commissariat had declared the Soviet Union did not intend to participate in plans formulated at Geneva for an "economic united states of Europe."

The despatch said the Soviet opposed schemes "tending to estrange Europe from America" and desires to remain neutral in the forthcoming economic struggle between the two continents.

Send Message To His Majesty

Business Men Meeting In Edmonton Send a Message Of Greeting

Edmonton. — A message of greeting from the 300 business men from all provinces, and representatives of five of the leading chambers of commerce of Great Britain, together with members of the Mother of Parliaments, was sent to King George at the opening of the fourth annual convention of the Canadian Chamber of Commerce. The message, signed by the president, William Birks, conveyed to His Majesty the rejoicing of the convention over the improvement in his health.

Messages of greeting from the Governor-General; Rt. Hon. Ramsay MacDonald, prime minister of Great Britain; Rt. Hon. W. L. Mackenzie King, prime minister of Canada; Lord Passfield, secretary of state for the dominions; Lord Iveagh, president of the Federation of Chambers of Commerce of the British Empire, and from the premiers of various Canadian provinces, were read.

"It is the very earnest and confident hope of myself and of all my colleagues that the remarkable progress of Canada may continue at a rapid rate; and that the free, the happy and the mutually advantageous association which unites her with Great Britain may be strengthened," said the prime minister of Great Britain in his message.

Saskatchewan By-Elections

Dates Have Been Set For October 7 and 14

Regina, Sask. — Fixing of the dates of eight by-elections made necessary by the elevation of certain private members of the Saskatchewan Legislature to cabinet positions, calling of the first regular session of the legislature by the new government shortly after the first of next year, and decision to hold a provincial-wide Liberal convention next spring, are the three developments of the political situation in Saskatchewan.

Premier J. T. M. Anderson announcing during the day the dates of the by-elections, stated the regular session of the legislature would not likely be called until after the first of the year. George Spence, in charge of the organization department of the Saskatchewan Liberal Association, made the announcement of the intention to hold a provincial-wide convention in the late winter or early spring.

The dates of the by-elections are as follows: Regina, Moose Jaw, Saskatoon and Lumsden, nominations on September 30, elections on October 7. Tisdale, Moosomin and Yorkton, nomination on October 7, elections on October 14.

MacDonald May Sail On 28th

New York. — In a special cable from London to the New York Times, the London Daily Express is quoted as saying that Premier Ramsay MacDonald has definitely decided to sail for the United States on September 28.

Sir Henry Thornton Bank Director

Montreal. — It is announced that Sir Henry Thornton, president of the Canadian National Railways, has been appointed a director of the Royal Bank.

Represent 100 Years of Service

Harry Saunders (left), engineer of the special Canadian Pacific Railway train that recently took E. W. Beatty, president of the railway, and several directors on a tour of the Maritime Provinces, and Charles Henderson, conductor on the train, represent between them just over a hundred years' service with the company. Mr. Henderson has put in 53 years of service, making him the dean of C.P.R. engineers; Mr. Saunders has a record of 45 years' railway service.

LABOR PARTY WINS APPROVAL OF THE PEOPLE

London, Eng. — With Communist entanglements completely severed, the Labor party conference opening in Brighton, at the end of the month, is expected to devote the bulk of its attention to overdue reforms with the object of bringing the party constitution into line with modern necessities.

The executive's report proclaims that the Labor Government has seized the people's imagination. Events are being shaped with a vigor and spirit that is refreshing, it says, after the inertia of the past four years.

Answering the Liberal demand for electoral reform, the report says this clamor never was heard when the Labor party was struggling for existence.

The affiliated membership of the party dropped from 3,294,000, in 1927, to 2,077,000 last year, largely due, the report says, to difficulties arising from the Trade Union Act which compelled civil service organizations to discontinue affiliation, while in many instances new machinery for securing the contracting in of party supporters had not yet been established.

Makes Important Discovery

Young Scientists Startles American Chemical Society With Demonstration

Minneapolis. — The splitting of a supposedly indivisible element, hydrogen gas, in two substances, was demonstrated to the American Chemical Society here.

It was called the "greatest scientific discovery of 1929," by Dr. Hugh S. Taylor, of Princeton University, chairman of the session.

Dr. R. F. Bothooffer, a young German, who was a 17-year-old infantryman in the front-line trenches at the close of the world war, is the discoverer.

Dramatically he set his proof before the eyes of the chemists in a spot of light upon the wall of a University of Minnesota lecture room. Like a moving finger it wrote the forecast of a revolution in physical chemistry. This revolution was described enthusiastically by Dr. Taylor.

"It opens the way to finding an entirely new species of molecule. It is the first proof of something forecast mathematically by the new wave mechanics. It means that our texts on physical chemistry will have to be re-written."

The discovery has no present commercial use, but the new world in chemistry it seems to open is very important.

Premier's Western Trip

Depends Largely On the Plans Of Ramsay MacDonald

Ottawa, Ont. — The western trip of Premier Mackenzie King this Fall depends a good deal on the plans of Premier Ramsay MacDonald, of Great Britain. Premier King states that if Premier MacDonald visited Washington, he (Mr. MacDonald) would come to Ottawa at the conclusion of that visit. If the British prime minister came to Ottawa, Mr. King said he wanted to be here to receive him and discuss certain matters of interest to Canada and Great Britain. He expects that if Mr. MacDonald crosses the ocean it will be about the end of this month, or early in October. Mr. King will not go to Washington. He regards Mr. MacDonald's discussions there as entirely between the president and the premier of Great Britain.

Largest Western Port

Vancouver. — According to figures obtained by Canadian Pacific Steamships, Limited, the Port of Vancouver now ranks first among the ports of the Pacific coast. Outshipping San Francisco and Los Angeles in volume of inward and outward traffic and tonnage of exports and imports with a total of 9,899,787 tons of food imported into and exported from Vancouver in 1928, it surpasses all competitors, the nearest in line being Seattle.

MEN AT THE HELM

It seems that between the least and
the greatest among men there is a
gulf fixed, as though leaders were
men apart from the habit and fashion
of common humanity. Yet history and
experience prove otherwise. When fate
contrives a crisis of calamity or ne-
cessity, men rise out of the common
stock suddenly rich in strength and
wisdom. Ordinary men are discovered
capable of greatness and common men
reveal their right to dignity and dis-

inction. So often has this happened
in our own national history that it is
beyond the probabilities of mere acci-
dent.

How are men made for leadership?
In part they are born for it, yet their
heritage differs not greatly from the
common stock of humanity. Partly
they are created by the emergency
which calls for them or by the oppor-
tunity which touches the secret spring
of their powers. Partly they are built
up by small things to be capable of
great things. Yet none of these de-
clares the secret of the supremacy
of true leaders of men.

The stuff which gives stature to the
great man comes not alone from with-
in him. Much of it is conferred upon
him by his fellows. They turn over to
him their own loyalty, their labor and
their strength. They put power into
his hands. He becomes the symbol of
other men's hopes, convictions and
purposes; his strength is magnified and
his spirit upheld by the gifts of those
that follow him.

As best we can we put good men
at the helm of our affairs. Into their
hands we give power and on their
shoulders we place responsibility, dig-
nity and honor. Those that use such
gifts in wisdom and humility earn the
title to leadership among men.

WASTE IN ADVERTISING

This is an age of advertising. Busi-
ness could not get along without it.
Yet many merchants waste a large
share of the money they think they
spend on advertising and wonder why
they do not get better results.

Women do most of the buying for
the home. Now, did you ever see a
woman go looking over the bill boards
or reading the movie screen adver-
tisements in order to make up her

mind what or where to buy?

Does she get her shopping informa-
tion from a theatre program or a te-
lephone directory? Not on your life!

Outside of the store itself, the best
and almost the only way to attract
a prospective customer's attention to
what you have to sell is through the
newspaper that goes into the home.
The store that advertises adequately
and persistently in its local newspa-
per has no need to waste money on
the other inferior mediums mentioned.

SEVENTH SEASONAL CROP REPORT BY DEPARTMENT

Threshing is fairly general through-
out the province and grain in many
cases is yielding higher than was an-
ticipated. Threshing has been resumed
in most districts after a short period
of unsettled weather which delayed
operations to some extent and with
continued good weather will be com-
pleted somewhat earlier than was the
case last year.

From the reports received it is es-
timated by the Department that the
average wheat yield for the province
will be between eleven and twelve bu-
shels per acre. This is as close as the
estimate can be made with any de-
gree of accuracy until further returns
are received from the threshermen
throughout the province. The above
figures are borne out by the returns
which have already come in.

According to an estimate arrived at
jointly by the Department of Agricul-
ture and the Dominion Bureau of sta-
tistics, the wheat acreage in Alberta
this year has been placed at 7,422,962
acres.

A very satisfactory feature of the
present season's yield is the high qual-
ity of the majority of the wheat be-
ing threshed, many districts reporting
a large percentage of No. 1 and No. 2.
In some cases, however, the grade has
been reduced by the presence of green
kernels, but in very few cases is the
grade below No. 3.

It is apparent from the reports that
there will be a shortage of seed oats
available for next year's crop in some
districts in the central parts of the
province, but it is believed this de-

mand can be met satisfactorily by oth-
er sections of the province where a
heavier yield of the coarse grains is
being threshed.

Negotiations have been under way
between the Alberta Government and
the railway companies respecting the
free shipment of hay and feed oats
into those districts where the crop is
short. These arrangements have now
been completed and the plan will be
in operation after September 18. Far-
mers interested in taking advantage
of this agreement are asked to com-
municate with the Department of Ag-
riculture where full information is
available.

A careful survey made by the field
representatives of the Department in-
dicates that a comparatively small
amount of hay will be required as ev-
ery available source has been made
use of and the dry weather has per-
mitted the cutting of hay on many
sloughs which were previously flooded.
The amount required will, of course,
depend on the length and severity of
the winter. There has been quite a
demand for feed oats in the area most
severely affected by the drought.

WHEAT

Wheat is a hardy cereal which is
grown to the best advantage in coun-
tries where it gets so cold that the
soil has to be cultivated with a blow
pipe. The best wheat in the world is
grown in the frigid zone of northern
Canada, where frost can be found
2000 feet below sea level.

Wheat is the father-in-law of the
breakfast food industry, and has taken
the place of a number of popular sub-
stitutes, such as shavings, sawdust
and soy beans. If it were not for
wheat, several of our most prominent
and plethoric breakfast food magnates
would have to get acquainted with
work, instead of riding around in
coonskin overcoats and writing adver-
tisements addressed to people who are
long on appetite and short on bright,
red corpuscles.

Wheat was invented by the Chinese
about 2700 B.C. The Chinese are a
cautious people, so they fed the first
crop to the missionaries, then sat

down and waited for results. As none
of the missionaries were seized with
anything, more wheat was planted the
next year and the hotel pancake was
introduced. This teaches us that no
nation which lives on hoary traditions,
pancakes and chop suey will rise very
high in the scale of human intelli-
gence.

Wheat is sold by the bushel to shoe
string speculators who buy it on mar-
gins and sell it with a sense of deep
injury. It is a very exciting pastime
to margin 20,000 bushels of wheat with
collateral consisting of a bicycle pump
and a Round Oak stove, but it is done
every day by fascinated cashiers who
hug the stock ticket at the close of
the morning service. The price of
wheat is fixed at Liverpool in such a
manner as to cause several melancholy
advances in the cost of flour.

Next to fish there is nothing so good
for people whose brains need resusci-
tating as wheat. If proof readers and
compositors would eat two pounds of
whole wheat for breakfast every morn-
ing, there would be fewer boneheads
committed in the society column.

Sell yourself a Chevrolet

CHEVROLET owners sell themselves on
Chevrolet. They learn, behind the wheel of
the New Chevrolet, just what it means to drive a
real six . . . a six with a high-compression valve-in-
head engine, with staunch and stylish Body by
Fisher . . . yet a Six at the price of a four.

They taste the joys of six-cylinder power and
smoothness . . . six-cylinder snap and acceleration.
They experience Chevrolet's marvelous comfort
and handling ease. They discover that this amazing
new Chevrolet gives them every modern conven-
ience feature . . . such as twin-beam, foot-controlled
headlights; finely upholstered, deep luxurious
cushions; high-speed window regulators; Ternstedt
quality hardware; completely equipped, indirectly
lighted instrument panel, including electric temper-
ature indicator and theft-proof Electrolock.

When you are considering the purchase of a car
sell yourself on the car you want. Get behind the
wheel of the New Chevrolet and make your own
tests. Then decide on Chevrolet only after you
have proved to yourself that it offers you more
for your money than any other car in the low-
priced field.

IT'S BETTER BECAUSE IT'S CANADIAN

"Worth making a noise about"

**DON'T SPEND YOUR
MONEY OUT OF TOWN!**

It looks like a hard year for everyone and the
people of Carbon and district would be well ad-
vised to spend their cash here this year instead of
sending it to the mail order houses. If you do this
the whole district will prosper and the merchants
will not be unwilling to extend some credit in the
spring to their cash customers. On the other hand,
if you send your cash to the mail order houses and
in the spring when you need the credit, you will
have only yourself to blame if the merchant refuses.
His credit will be limited this season and he will
direct it where it will bring cash returns.

DID YOU EVER STOP TO THINK?

(By Edson R. Waite)

That the average growing and pro-
gressive town could not at any cost
be without a good newspaper.

The newspaper in every city is one
of the greatest instrumentalists for
suppression of crime.

The newspaper in every town in
founded on the basic principle of en-
couragement of community develop-
ments.

The newspaper in every city is vi-
tal to the merchant and his business
success to the extent of advising the
readers of his adaptability to every
changing condition.

The newspaper is the biggest single anyhow!—Rice Owl.

industry for general good in nearly ev-
ery city and—

the average newspaper worker, tho'
ofttimes underpaid, is the hardest
working individual in the town. He
is at the call of the merchant and
at the source of news twenty-four
hours in the day; he never stops,
like the actor, the newspaper man
has his aims—the newspaper must
be printed.

An old farmer made a trip to the
city and decided to startle the wife
by appearing in brand new raiment.
To save wear on the new suit he
placed it in the back of the wagon.
A few miles from home he took off
his old clothes and tossed them off a
bridge into the river.

He was surprised to see that the
new clothes had dropped out of the
wagon.

"Giddap, Maude," yelled the old man,
pulling down his shirt tail as he re-
alized his plight. "We'll surprise her
The newspaper is the biggest single anyhow!"—Rice Owl.

WORLD HAPPENINGS BRIEFLY TOLD

According to Assessment Commissioner Farley, the population of Toronto this year showed an increase of 20,742, as compared with 1928. The figures are: 1929, 606,370; 1928, 585,628.

Coal, one of the few minerals which new Ontario's wealthy mining fields had long failed to show, has been discovered in vast quantities on the Abitibi River, 90 miles north of Cochrane, Premier Ferguson announced.

Hon. W. L. Mackenzie King, Canadian Prime Minister, is expected to make a tour of the West and British Columbia during October. Hon. Dr. J. H. King informed the committee of the British Columbia Liberal Association at Vancouver.

The government crop report issued by the Dominion Bureau of Statistics estimated the wheat crop for all Canada at 293,792,000 bushels. The crop last year was 566,726,000 bushels, which was a record crop for this country. The estimate for the three prairie provinces is 269,471,000 bushels. Last year the prairies produced 514,598,000 bushels.

Asthma Is Torture. No one who hasn't gasped for breath in the power of asthma knows what such suffering is. Thousands do know however, from experience, how immeasurable is the relief provided by that marvellous preparation, Dr. J. D. Kellogg's Asthma Remedy. For years it has been relieving the most severe cases. If you are a sufferer do not delay a day in securing this remedy from your druggist.

If drivers would only get it into their heads that it is the reckless driver that we want instead of the reckless driver, all would be well on the King's highways.

It is usually safe to say that when a child is pale, sickly, peevish and restless, the cause is worms. These parasites range the stomach and intestines, causing serious disorders of the digestion and preventing the infant from deriving sustenance from food. Miller's Worm Powders, by destroying the worms, correct these faults of the digestion and serve to restore the organs to healthy action.

Willowden Magistrate: What is his occupation?

REPRESENTATIVE HEALTH EXHIBIT

The most representative health exhibit ever shown in Canada was a recent feature of the Canadian National Exhibition, when the Ontario Government provided space in its excellent show for leading voluntary health societies. Above is shown the Canadian Social Hygiene Council booth designed by Dr. C. P. Fenwick, of Toronto. Other agencies given space by the government were the St. John Ambulance Association, Victorian Order of Nurses, Child Welfare Council and the Red Cross.

Visit Of Sir John Martin-Harvey

Again Coming To Canada With Three Well-Chosen Plays

Who will ever take the place Sir John Martin-Harvey has won for himself in his many visits to Canada? the thought arises from his announcement that on this tour, during which he will be seen at The Grand Theatre, Regina, on November 4, 5 and 6, he will make his farewell appearance as Sidney Carton in "The Only Way." In this role, in this splendid drama, Sir John has built up through many years a reputation that is probably unique in stage history. To the confirmed theatregoer the final speech of this ne'er-do-well character is probably as well known as the soliloquies of Hamlet, and all because Sir John brought his great ability to a part that could be less than mediocre in the hands of an actor of ordinary rank and merit. It is truly to be regretted that Sir John has decided to end Sidney Carton, for end it is, as there is unlikely to be anyone in this generation who will revive the role to the satisfaction of those who have seen the greatest of Sidney Cartons.

Sir John has made another of his surprising moves in adding for this tour "Rosemary" to his repertoire. This rare piece is a romantic drama of 1837, that makes an appeal to everyone. It is the story of the wholesome love of Sir Jasper Thorn-dyke, 40, for a young girl. It abounds in humor, pathos, and the general beauty associated with the gentle, kindly age it represents. As Sir Jasper, Sir John Martin-Harvey is seen at his best.

For the third play on his list, Sir John has gone to the modern Spanish. The title is "The Lowland Wolf." From the pen of Angel Guimera, the play presents to Sir John a remarkable chance to show talents that have not been altogether displayed on his recent Canadian tours. He takes the part of Manelich, a shepherd of the mountains. The play has been translated into twenty-one languages, and so powerful an appeal has been made by Manelich to the Spanish people, that they have erected a statue to him in Barcelona. In Spain he holds rank with Hamlet. This will be the first time this epochal Spanish play has been seen here, and it should prove one of the most popular in which Sir John has ever appeared. For his present tour he has engaged a splendid company, and if it should be a farewell visit it will be one long remembered.

Forest Fire Fighting Methods

Specially Designed Apparatus Found To Be Of Great Help

Forest fires in Canada are, to an increasing extent, being fought by specially designed apparatus. Light gasoline fire-pumps have been put into use which will deliver a forceful stream of water through half a mile of hose. Fighting the fires at night is also greatly expedited by the use of lamps similar to those used by miners, which can be attached to the worker's cap and so enable him to keep on working during the hours of darkness, at the very time when his work will have the greatest effect.

Minard's Liniment—The King of Pain.

SUNDAY SCHOOL LESSON

SEPTEMBER 22

MALACHI FORETELLS A NEW DAY

Golden Text: "Behold, I send my messenger, and he shall prepare the way before Me."—Malachi 3:1.
Lesson: Malachi 1:1 to 4:6.
Devotional Reading: Isaiah 11:1-10.

Explanations and Comments

The Coming of the Lord In Judgment, verses 1-6.—In the preceding verse the prophet represents the people of Judah as complaining that the wicked please God, that God is not just in prospering them while they, the righteous, suffer. "Where is the God of Justice?" they ask. Now the prophet represents God as replying to them and encouraging them with a message of hope. "Behold, I send my messenger." The word "Malachi" means "my messenger"; it has probably become the title of the book because of its use here in this verse. "He will prepare the way before Me." Recall our lesson from Isatan 40, whence this statement is thought to be borrowed. Zechariah (8:3), had promised that Jehovah would come to His temple, and our prophet assures the people that He, the messenger of the covenant, who is part of the covenant or agreement with His people, will suddenly come. "The birth of Jesus is the sunrise of the Bible. Towards this point the aspirations of the prophets and the poems of the psalmists were directed as the heads of flowers are turned towards the dawn. From this point a new day began to flow silently over

the world,—a day of faith and freedom, a day of hope and love. When we remember the high meaning that has come into human life and the clear light that has flooded softly down from the manger-cradle in Bethlehem of Judea, we do not wonder that mankind has learned to reckon history from the birth of Jesus, and to date all events by the years before or after the Nativity of Christ."—J. E. Vandyke.

"How wonderful the history of Israel—victor with God! First a band of westward emigrants, then a horde of escaped slaves, then a host of conquering warriors out of the desert; then crushed and ground into captivity; thence, after seventy years, to return with songs and outburst of poetry, prophecy, and wisdom; then, after flowering in the Messiah, withered and dead down to the roots; then all that was visible crushed and ground under Rome's world empire, and scattered as dust to the winds,—that is the story of the Hebrew people. And yet Israel's gift to the world is unique, deathless, unmatched in value. Out of Israel came the moral law, prophecy, the eternal word, the Teacher of nations, the Saviour of mankind, our Exemplar and inspiration, the Word of God which liveth and abideth forever."—William Elliot Griffis.

Minard's Liniment—Used for 50 years.

Ned: "I don't know of a single girl I'd like to marry."

Teddy: "Same here; they're all tied up to some chump."

Death Dealing Toxin

Dreadful Possibilities Of Use In Warfare Is Explained

The dreadful possibilities of a certain death dealing toxin in war time was mentioned by Professor Leonard Hill, in an address to the Sanitary Inspectors' Association, at Lowestoft, England.

Professor Hill called attention to "a certain bacilli which shall be nameless, but is easily cultivated.

"If men were as susceptible as guinea pigs are to the toxin produced by this bacillus and there is reason to think they are, it would appear that one gramme, let us say a salt spoonful of the dry toxin would suffice to kill a million persons."

Prof. Hill said that the toxin acted if inhaled or if it touched the eye as a powder. He asked the association members "If men set out to prepare such a toxin and to scatter it by aeroplanes, what would be the use of the panoply of war."

It Will Prevent Ulcerated Throat.

At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

Every two years a whale travels about 25,000 miles—the distance around the world—fish experts say.

Over 100 different languages are spoken in India.

The Singing Fool

By HUBERT DAIL

Copyright, 1929, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, the singing waiter and song writer at Blackie Joe's New York night club, is discovered by Marcus, the famous Broadway revue producer. Al insists on helping Molly, the ballad singer at Blackie's, because he loves her. Molly marries him, not loving him, and he pulls her up the ladder of fame. Meanwhile, Grace, the cigarette girl at Blackie's, who loved Al without his knowing it, is left behind. Molly has a baby. After her return to the stage her romantic interest in John Perry, Al's best friend, is revived. Al becomes part owner and master of ceremonies at the fashionable Club Bombo. On the third anniversary of their marriage he slips a jewel case under a napkin on her reserved table. Molly is in her limousine with John Perry on the way to the club. He pleads with her to throw over Al for him and suddenly kisses her.

CHAPTER XIII.

Brimming over with affection, Al greeted Molly as she entered the Bombo Club. Then he turned to Perry and said wholeheartedly:

"Awfully good of you, old man, to take care of Molly while I'm working."

Perry had turned away to see if any vestiges of Molly's face powder still remained on his coat. Satisfied that he was safe, he turned his coat, hat and stick over to a check girl and acknowledged Al's thanks with an appearance of sincere cordiality.

They passed into the main dining room, Al leading the way. As they moved toward the reserved table, bewildering and contrasting thoughts flickered through Molly's mind. What a strange whirlpool of emotions had sucked her down! She felt the light caressing kiss that Al had given her in greeting still on her lips, but behind it, and much more intense, was the recollection of John Perry's embrace.

Now Molly and John Perry were seated at the table, while Al remained standing, watching his wife with intense curiosity. Why did he do that, she thought. Did he suspect something?

Al was waiting for her to lift her napkin. When she leaned back in her chair and made no move to do it he pantomimed definitely for her to look under the tiny square. Molly raised the napkin, saw the jewel case and card, and gave a cry of delight.

"Oh Al, this is wonderful of you!" With eyes sparkling she tenderly lifted from the padded silken interior of the box a magnificent diamond brooch. She drew it close, held it at arm's length, studied it carefully—while Al's face was radiant at her expression of delight. Then she passed it to Perry for inspection.

A moment later she was pinning the expensive brooch to her dress, while Al turned and drew the attention of the crowd toward him.

"Folks," he said, "we have with us tonight none other than Molly Winton, the celebrated stars of the 'Merry-Go-Rounders.'"

Then, with a proud gesture, he indicated Molly. Rousing applause was the answer of the crowd—a tribute to the girl's popularity. But Al raised his hand.

"Wait, folks!" he cried. "You ain't heard nothin' yet."

He seized Molly's hand and pulled her reluctantly to her feet. While she stood smiling and bowing to the audience he continued:

"And for the benefit of those of you who don't know it already, I want to say that Miss Winton is, in private life, my wife! Tonight we are celebrating the third anniversary of our marriage—and I want you all to congratulate us and be happy with us."

With that, Al suddenly slipped his arms about Molly, drew her close and kissed her. The roar of applause was deafening, twice the volume Molly received by herself. As she stood, with Al's arm around her waist, bowing again and again, there were insistent cries from the crowd that she give them a song. Molly nodded amiably.

"Will you sing for them, honey?" whispered Al.

"Yes, I don't mind."

Al tucked his arm comfortably under Molly's and led her toward the orchestra platform. The crowd waited silently, giving her every attention. At the table she had left, John Perry sat with his elbow on the table and his chin in his cupped hand, staring after her retreating figure. A vague smile played across his features. When the song was finished and Molly returned, Perry rose and said:

"That was splendid, Molly! I never heard you in better voice. You held them in the hollow of your hand."

"Thank you, John," said Molly quickly, but with pretended indifference. Then she turned to Al: "Can't you sit down and stay with us a while. Must you always be circulating among the customers?"

"I'll be back in a moment," whispered Al. "You know I want to be with you every moment I can. But, after all, I'm master of ceremonies." Molly shrugged her shoulders as he moved off. She had made her play for him to stay, but she was pleased he had gone off. Now she could talk to John.

"And you say you need him!" came Perry's whispered exclamation across the table.

"What do you mean?"

"Well, you heard the applause you got. You don't need him at all."

"Sh!" Molly drummed on the table-top without further words. The pink, polished nails of her white, be-ringed fingers went up and down with incredible rapidity. Too many rings on those slim fingers, too many glittering gems to be in the best of taste! How stridently they proclaimed her wealth and success! Molly glanced down at the brooch Al had just given her, as it reposed against the satin bodice of her gown. A few days before she had mentioned casually that she wanted a new brooch. Now—presto!—it was hers! But now, a few moments after Al had given it to her, it became just another costly ornament to add to her rich collection; the significance of the gift was lost on her.

A half hour passed, and Al returned to the table. Another half hour, and John Perry rose to go.

"Fraid so," John answered. Now he was the one who thought of caution; he wished she wouldn't show her feelings so plainly before Al.

"Why?" she insisted. "I thought you'd run home with us for a while."

"Well, it's late for one thing. Besides, Molly, this is your anniversary. I know you and Al want some time alone together."

Perry spoke with the utmost gravity, but Molly thought she detected a sardonic gleam in his alert eyes. He was making fun of Al, and of her, too! For a moment she hated him for it. . . . But a moment later, when Perry had gone, she hated Al for creating the situation. Her thoughts, which had been bewildered, turned bitter. Anniversary indeed!

The Rolls-Royce sped rapidly toward home, with Molly keep-

Fallacies About the Moon

When Not Visible Kaffirs Say It Has Headache

The Dakota Indians think that the moon at its waning is eaten by mice. The Polynesians believe it is devoured by the spirits of the dead. The Kaffirs say that it wanes when, suffering from a headache, it puts its hand to its forehead and hides the latter from our view. The Eskimos imagine that the moon, harassed by fatigue, retires for a moment to take a rest and food.

A WARNING TO MOTHERS

Watch the Health Of Your Little Ones At All Times

No mother can expect that her child will escape all the ills to which babyhood and childhood are subject, but she can do much to lessen the severity of these troubles. The mother should be constantly on her guard to prevent childhood ailments, or if they come on suddenly as they usually do, to have the means at hand to relieve them. Thousands of mothers have found Baby's Own Tablets the ideal remedy for little ones—thousands of mothers always keep the Tablets in the house as a safeguard against the sudden illness of their little ones.

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels, sweeten the stomach and thus banish constipation and indigestion; break up colds and simple fever and make the cutting of teeth easy. The Tablets are absolutely guaranteed free from injurious drugs and may be given to the youngest child with perfect safety. They are sold by medicine dealers or by mail at 25c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Proposed Nicaraguan Canal

The fate of the proposed Nicaraguan Canal, stretching 183 miles through tropical mountains and forests from the Atlantic to the Pacific ocean, will depend on reports from a battalion of 400 engineers who were recently ordered to duty in the central American jungle to survey the route of the \$1,000,000,000 canal.

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm Exterminator to drive out the parasites.

Fortune-Teller: You will suffer poverty until you are thirty-five years old.

"And then?"

"By then you will have got used to it."

A DOZEN different things may cause a headache, but there's just one thing you need ever do to get immediate relief. Aspirin is an absolute antidote for such pain. Keep it at the office. Have it ready in the home. Those subject to frequent or sudden headaches should carry Aspirin in the handy pocket tin. Until you have used it for headaches, colds, neuralgia, etc., you've no idea how much Aspirin can help. It means quick, complete relief to millions of men and women who use it every year. And it does not depress the heart.

Little Helps For This Week

"In Thy presence is fulness of joy." Psalm xvi. 11.

O Friend of souls! 't is well with me Whene'er Thy love my spirit calms;

From sorrow's dungeon forth I flee, And hide me in Thy sheltering arms.

The night of weeping flies away Before the heart-reviving ray Of love that beams from out Thy breast;

Here is my heaven on earth begun; Who were not joyful had he won In Thee, O God! his joy and rest.

—Wolfgang Dersler.

We can even here be with God, so long as we bear God within us. We should be able to see without sadness our most holy wishes fade away like sun-flowers, because the sun above us still forever beams, eternally makes new and cares for all. And we must not so much prepare for eternity as plant eternity in our hearts,—eternity serene and pure, full of depth, full of light and all else.—Jean Paul Richter.

Education For Labor

Inauguration Of Workers' Educational Classes Is Advocated In Manitoba

Inauguration of workers educational classes on lines similar to those which he said were flourishing in Great Britain, Australia, New Zealand and South Africa, was urged by R. J. Hall, of Swansea, Wales, at a conference with prominent Manitoba educationalists, Labor leaders, and government officials held at Winnipeg. Mr. Hall is a promoter of the scheme in the old country.

Hon. R. A. Hoey, provincial minister of education, thought it possible his government might be interested.

Use Of Radium

Complete Potency Of Radium As a Cure For Cancer Not Substantiated

Warnings against undue optimism were sounded at the sixth annual meeting of the British Empire Cancer Campaign, presided over by the Duke of York. Sir Thomas Horder, physician in ordinary to the Prince of Wales, and physician to St. Bartholomew's Hospital, in presenting the annual report, said that the launching of the National Radium Fund might create in the minds of many people an unfounded belief in the complete potency of radium as a cure for cancer. Such a belief might have very unfortunate results for the patient if carried into practice in any case in which the growth was completely removable by operation. In the course of time radium might come to equal or even exceed operative measures in efficiency. At present, however, it was the bounden duty of the doctor, in very many cases, in his patient's interest, to overrule his antipathy to surgical measures. All the same, the number of cases to which radium was applicable and the number in which brilliant results were achieved increased every year. But Sir Thomas added that it was open to considerable doubt whether many of the institutions that were advertising for money to purchase radium had upon their staffs men or women qualified to use it. It might even be necessary to employ some of the money collected in providing for such training in the use of a powerful but dangerous remedy.—Toronto Mail and Empire.

Hard and soft corns both yield to Holloway's Corn Remover, which is entirely safe to use, and certain and satisfactory in its action.

An essayist has discovered that two can live on three hundred pounds a year; but he omits to say two what.

Illness Kept Her From Work

"I took Lydia E. Pinkham's Vegetable Compound because I was so sick every month that I had to keep my bed for two days and I suffered so that I felt badly all the time. I had been working in a factory but for a long time was not able to work as I was so run-down and nervous. My friends told me of the Vegetable Compound. I am now sound and well and have gone back to work. I have a good appetite, my color is good and I am in good spirits."—Evelyn Bowque, 132 Alma Street, Moncton, New Brunswick.

WORLD'S FAMOUS THREE FUEL HART PARR

In special tests conducted by nationally known engineers who used cheap distillate fuel the great Hart Parr 18-36 registered a draw bar pull of 5,535 pounds at 2 miles per hour and 4,075 pounds at 3 miles per hour. On the belt it easily pulled the amazing load of 43 horse power. The Hart Parr is a three fuel tractor and will burn gasoline, kerosene or distillate equally well. It is the one tractor that develops its power from the cheapest low grade fuel. Hart Parris are made for small, medium or large farms and have three forward speeds to speed up hauling and field work. Drive yourself and experience the thrill of controlling tremendous power.

DON'T MISS IT

CRUELTY TO DUMB ANIMALS

It has always been a strong point
of grown ups to preach kindness to-
ward all dumb animals, and they
should practice as they preach.

The other day a kitten entered a
room containing some girls and boys
and a grown up man. The man dis-
approved of the kitten's presence and
showed his disapproval by striking
the kitten several times before he
threw it out the window of a two
story building. Shortly after the
shocked children heard cries of pain
from the same animal and they are
still wondering how this particular
grown up can ask them to be kind
to all animals and do such a cruel,
heartless deed.—Contributed.

Who Does Your
Printing?

All business houses need more or less printed matter, all of which
is within the possibilities of the local printer. Yet how prone
many are to pass up the home printer and let the orders go to
city offices which have no interest whatever in rural communities
except to get printing orders and the cash to pay for them. Busi-
ness men, remember that the home paper is constantly promot-
ing the interests of the home community and you owe it to your-
self and your local paper to back up these efforts by at least hav-
ing your printed matter done locally.
